mysticpixels@gmail.com

(+91) - 9986660233

Profile

Passionate about the life of an application, I love being vital player of a UX team, throughout the life cycle of the product / application, right from requirement gathering, through wire-framing / prototyping, to, being a preacher of web-standards and best-practices during implementation and deployment.

An ardent reader, a budding writer, a novice speaker and a passionate Internet-buff, I believe in the infinite possibilities of the wired world!

Skills
